

PROPOSED STANDARDS FOR ACCREDITATION OF PSYCHOLOGY COURSES

1. SUBMISSION DUE DATE FOR STANDARDS REVIEW

Submissions are due by Friday 15 July.

Stakeholders are reminded that your submissions on the proposed Accreditation Standards for Psychology Programs are due by close of business on Friday 15 July, 2016. We will not be able to accept submissions after that date.

We value your feedback. Our aim is to ensure the Standards, once adopted, enable innovative and high quality teaching and learning, while at the same time fulfilling the requirements of the National Law in relation to the protection of the public.

Australian Psychology graduates are already outstanding, and our aim with the proposed standards is to assist education providers to achieve even higher levels of quality in teaching and learning.

Therefore, your feedback counts! We look forward to receiving it.
